## RENTAL CAR TAX GENERAL INFORMATION

Rental cars are exempt from motor vehicle excise tax and subject instead to a 5.9% rental car tax on retail car rentals. The 5.9% rental car tax applies in addition to the retail sales tax. All counties are authorized to collect an additional 1% tax on retail car rentals. Revised Code of Washington (RCW) 82.14.360 gives King County the authority to collect an additional 2% tax on car rentals to fund a new baseball stadium.

“Rental car” means a passenger car used solely by a rental car business for rental to others without a driver provided by the rental car business.

“Rental car” does not include:

- A car licensed and operated as a taxicab.
- A leased car that, at the time the lease is entered, is rented for a continuous period of thirty days or more. (Leased cars are subject to motor vehicle excise tax.)

The rental car business must register its rental cars with the Department of Licensing under one of the following methods:

1. A rental car business may register all rental cars that are offered for rental in Washington, or
2. A rental car business with in-state and out-of-state locations may register its rental cars under the International Registration Plan (IRP) and allocate registrations according to the provisions of section 1116 of the IRP.

Rental cars must be used **solely** for rental to others. The car may be moved by the rental car business for the purpose of relocation to another business site, or for the purpose of transporting the car to or from a maintenance or repair facility. Any other use will cause the car to be subject to motor vehicle excise tax.

The state and/or county rental car taxes must be reported on the Rental Car Tax Addendum **only**. **Please do not report this tax on the Retail Sales Tax line or under the Local City and/or County Sales and Use Tax section of the Combined Excise Tax Return.**

You do not have to separately state these taxes on your billing to the customer, but may include them with the state and local retail sales tax. For example, if the state and local sales tax rate is 8.2% and the 1% county rental car tax applies, for a combined rental car rate of 6.9%, then the total charged to your customer would be 15.1%.
